

*SWOC analysis of the department*

***Department of Economics***

*The position of faculty is not fully staffed and the students enrolled in the department are below the strength of the department of Political Science. Moreover, there are three regular teachers only and one part-time teacher. Therefore, the department needs full strength of teachers. It also required learning materials to be installed in departmental library. The department is found without much publication works.*

*The future plans of the department are stated below: i) organising workshop, seminar, training, etc ii) procurement of text-books, reference books, subscription of more subject related journals, iii) undertaking research projects on socio-economic aspects in Chandel district or North-Eastern region.*

### *SWOC analysis of the department*

#### ***Department of Education***

*The department is staffed short of full strength of teachers. After the transfer of one senior teacher there is only one regular teacher. The department was without part-time teacher before two teachers were engaged. Therefore, the college is compelled to engage some temporary teachers. Moreover, the department is comparatively low in publication works perhaps because of heavy work in teaching-learning activities for the single regular teacher.*

#### *The future plans of the department*

*The future plans, making in tune with the needs/challenges of the department, are stated briefly.*

- i. organising workshop, seminar, training on teaching methods, new education policy, etc ii) procurement of text-books, reference books, equipments, subscription of more subject related journals, iii) purchase of teaching aids, strengthening departmental library, iv) appoint of teachers, etc.*

## *SWOC analysis of the department*

### **Department of English**

*The Department of English is also understaffed. Out of six sanctioned posts there are four regular teachers only in the department. Two teachers do possess M.Phil. degrees and two others with Ph.D. degree holders.*

*The department teachers do publish, undertake research projects, participated in many regional, national seminars, workshops, summer courses, etc. Some of those activities are related to teaching, methods, etc.*

*The success rate of students of the department in percentage is above 50%. The SWOC analysis of the department shows both attainment and shortcomings and for the latter and others the department has following areas in its plans: i) in the matter of teaching, in order to make teaching-learning process effective and to gauge the understanding of the students, periodic tests, interactions, group discussions and audio-visual learning shall be conducted, ii) with regard to laboratory, the department is considering to set up a language lab. To facilitate the students to learn the correct way of speaking the English language, iii) in respect of research, seminars, workshop on Folk tales, the relevance of English Language, topics related to the syllabus taught shall be organized, iv) with regard to learning materials both text-books, reference books, Journals on current trends, etc. will be purchased to strengthen the department.*

### *SWOC analysis of the department*

#### ***Department of History***

*As to the position of faculty, the department is also understaffed; for it has three regular teachers only. The department is also poor in publication work and the faculty members have not undertaken any research projects so far. Of course the faculty members have participated in national seminars/trainings and the Head of the Department is the Coordinator of IGNOU study centre of the college. 2/3 of the teachers is with P.G. degree only. The department has about fifty books as its collection in departmental library and it has a computer.*

*Against the weakness and challenges the department has plans in the following concerns. In teaching concern it has plan to equip with modern teaching aids, renovations of department, to conduct study tours to outside State institutions, etc. The departments has plans to conduct seminars, workshops on teaching history; to undertake research projects and undergo Ph.D. programme. Finally, it has plans to conduct photo exhibitions on historically important things/matters.*

## *SWOC analysis of the department*

### ***Department of Manipuri***

*The department is also understaffed having one teacher only and it has little strength of students. Perhaps the reason is that tribal students do not opt for the subject and a few general students do opt for it. But the department has publications, participations in literary works, recognitions awarded to Head of the Department, etc. The departmental library has a collection of more than hundred thirty books.*

*Some of its future plans include improvement in teaching-learning process by adopting modern teaching methods, application of new teaching aids, etc. It has also plan to conduct seminars, workshops, trainings on the concerns related to teaching-learning process and effort for attracting more students. The department also has plan for the renovation of the department, acquisition of more learning resources.*

*SWOC analysis of the department*

***Department of Political Science***

*As far as the existing strength of teachers the department is fully staffed. That is, there are four regular teachers and two part-time teachers. The department has the highest strength of students enrolled in any academic year. So the ratio between students and teachers is normally 1: 80-90. The faculty members including the part-time teachers are above P.G. degree level and a teacher is undergoing a Ph.D. programme and another teacher has Ph.D. degree.*

*The department has a pretty good publications, undertaken both minor and major research projects under UGC, ICSSR, Tribal Research Institute, etc. having highest number of research projects undertaken in Arts discipline. Moreover a faculty member is a research guide/supervisor who has produced two Ph.Ds., M.Phil. and three more Ph.D. scholars are undergoing Ph.D. programme under him. The faculty member also participated in many national and international seminars, workshops, trainings, summer courses, etc.*

*Department of Political Science has its own departmental library which has collection of more than seventy books, both text and reference. Therefore, the department has plans to overcome weakness and respond to the challenges by carrying out plans relating to teaching-learning process for its improvement by applying modern teaching aids, methods, etc.; seminars/workshops on teaching Political Science, burning ethno-political issues, syllabus/curriculum, etc.; acquisition of learning resources of print and e-resources, more subscription of relevant journals published in India and abroad, etc.*

## *SWOC analysis of the department*

### ***Departments of Anthropology***

*Out of six sanctioned posts there are three regular teachers only. So it is understaffed. All the three teachers possessed P.G. degrees and they are without doctorate degree. One faculty member has undertaken major research project and they have little publications works. The ratio between teachers and students is 1:10. The departmental library has a collection of about seventy five books and it possessed a computer, one overhead projector and a small museum collection. The faculty members participated in national and international seminars.*

*The department has future plans in the following areas : procurement of teaching aids such as LCD projector, smart board, laboratory equipment, etc. ; to expands room for class and museum; to conduct seminars/workshops on ethnic diversity of the district, cultural change, syllabus-related issues; purchase of more relevant books, etc. They were planned so that the weakness and challenges may be overcome.*

## *SWOC analysis of the department*

### ***Departments of Botany***

*The Department of Botany is also understaffed being manned by two teachers only. Moreover, there is only one regular teacher and one is a part-time teacher. But the department has produced maximum publication works in the college and some of the publications (article in journals) are in reputed international journals. The faculty members also have undertaken research project and a faculty member is research supervisor and he produced two Ph.Ds. and five M.Phils.*

*In the departmental library there is collection of more than hundred books, three journals and a computer, one ILC projector, one steel camera and possessed most of required laboratory equipments. The faculty members are also well qualified having Ph.D. and M.Phil. degrees. They participated in national seminars/trainings in the past four years. The department has planned to carry out in the following concerns: procurement of more science equipments, renovation of infrastructure; possession of adequate learning resources of both print and e-resources; to conduct exhibitions of wild plants and medicinal plants/herbs, etc.*

## *SWOC analysis of the department*

### **Departments of Chemistry**

*In view of existing number of teachers the department is fully staffed. Out of five sanctioned posts three teachers are part-time teachers. The department is without teachers with doctorate degree and three teachers only are with M.Phil. degree. Moreover, the department has least publication work and their participation in national and international seminars, workshops is also comparatively poor.*

*The department has a collection of about sixty books in departmental library, one computer, subscribed one journal, etc. The department has one overhead projector and does possess most of laboratory equipments. The department has its future planned in following regard : fuller applications of teaching aids and new methods in teaching-learning process; improvement in the use of air cooler/semi-air conditioned, construction of laboratory room with full samica and dust-free model, etc. It has also planned to conduct seminar/workshop at regional or national level, more acquisition of learning resources, etc.*

## *SWOC analysis of the department*

### ***Departments of Geology***

*In faculty position the department is staffed one short of full sanctioned strength. That is, out of five sanctioned posts there are four regular teachers. In science stream the department is next to the Department of Botany in publications of research articles both in national and international journals and the department has highest number of major research projects done under UGC, DST,.*

*The department possessed one overhead projector, eight laboratory equipments, two microscopes, four Brunton compasses, two Clinometre compasses and the collection of forty books in each departmental library. The department has the following future plans:*

- Teaching: In addition to conventional method of teaching it tries to invent and create novel method of teaching and adopt latest techniques, accentuate by using the contribution of ICT (Information communication Technology) in order to fit for achieving quality of higher education as well as to ladder up into the mainstream of national educational standard.*
- Laboratory: A better laboratory make up is urgently required.*
- Research/seminar/workshop: Research activities from the faculties of the department thought small in strength, is on the active tune. So, arranging seminar/workshop, etc will be ensured in the years to come.*
- Library: Our departmental library is not fitted in all aspects. So, we have to purchase a good number of standard text books, reference books and other related year wise from any available funding agency like UGC.*
- Photo exhibition: A number of field photographs (of the subject matter) from different parts of the state Manipur are with the faculties of the department. Therefore, exhibition is likely to arrange.*

## *SWOC analysis of the department*

### ***Department of Mathematics***

*Out of five sanctioned posts two posts are filled; department is short of staff by three. The department has comparatively fewer student strength. The reason is that tribal students usually do not opt Mathematics. The department has some quality research publications from abroad. Of course, at present the department has only one teacher after a faculty member joined Manipur University in May, 2015. The teachers also participated in national and international seminars/workshops.*

*The department has a few collections of books numbering about 120, a journal, a computer, etc.*

*Its future plans include:*

- Teaching: The department shall try to acquire teaching aids such as projector, slide machine, renovation of infrastructure related to teaching-learning process.*
- The department also has plan for organizing seminars/workshop on general relativity, operation research, etc. There is proposal for conducting research on numerical analysis and others.*
- There is plan for acquiring more learning resources so that the department is fully equipped with library resources in the college and department.*

## *SWOC analysis of the department*

### ***Department of Physics***

*Numerically stated the department is weak. That is two teachers only are teaching in the department. It is short of full strength by three. Department is comparatively poor in publications and research works. It has also similar conditions in their participation in national and international seminars/workshops and M.Phil. degree is the highest qualification of the faculty members.*

*The department also has few collections of books numbering about 150 in each departmental library, two journals, one computer, etc. and it has sufficient laboratory equipments. In order to meet the challenges and cope with its weakness, the following future plans have been made for the purposes:*

- application of teaching aids like slide projector, LCD projector, etc.*
- to install air cooler or semi-air conditioned rooms, more well furnished and fully equipped laboratory rooms;*
- to conduct seminars/workshops of regional or national level;*

*acquisition of more text and reference books, journals, periodicals, etc.*

## *SWOC analysis of the department*

-

### ***Department of Zoology***

*The existing strength teachers which is four in number is short to be fully staffed by one. Most of the teachers are well qualified having M.Phil. and Ph.D. degrees. But they have no much publications and research project works during the past four years. Of course it has highest strength of Science students admitted in the department.*

*Department of Zoology has a few collection of books in its departmental library which is about hundred ninety (190), one journal, one computer, internet connection, it has full laboratory equipments, etc. Yet the department is devoid of necessary and indispensable enrichment programmes, infrastructure, etc. Therefore, it has planned to carry out the following plans:*

- acquisition/procurement of more equipments, infrastructure, etc.*
- to hold enrichment programmes like seminars/workshops/trainings with the collaboration of external agencies, college and introduction of e-library/e-resources, etc.*
- conduct of Science exhibition on indigenous fishes, wild life of the State, etc.*
